

## FENCING

• This system was developed to meet market demand for alternative material instead of wood based product

• Available in various forms, Picket, Post & Rail, Close Boarded and Hit & Miss

• In line and corner posts available in matching colours

## TECHNICAL DETAILS

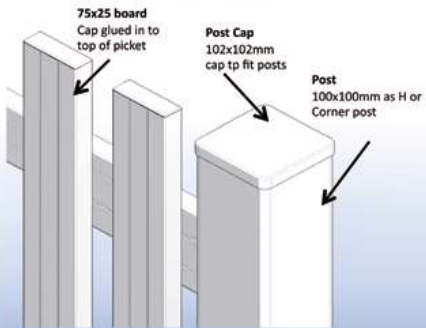

• Full uPVC construction, panels and posts

• Compatible with existing concrete H Posts, or using our range of uPVC posts (H, Corner & Sleeve)

• Available in White or specific RAL colour, or foiled to give wood effect in Black, Green, Rosewood and Golden Oak

• Posts come complete with relevant colour cap

## OPTIONS

**Picket** : 75x25mm boards, evenly spaced with 2 to 3 bracing bars on the back dependant on height

**Post & Rail** : 150x25mm boards can be spaced to customers own spec

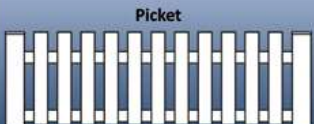

**Close Boarded** : 80x24mm tongue & groove boards, trimmed top & bottom

**Hit & Miss** : Can be made using 75x25mm or 150x25mm boards

All above can be supplied in kit form for on-site construction

Post & rail

Close-boarded

## OUTDOOR STORE

• This system was developed to meet market demand for alternative material instead of wood based product

• Designed for properties without external storage

• Lockable and weatherproof

• Size can be adjusted to suit customer needs

## TECHNICAL DETAILS

• Full uPVC construction, butt jointed at corners with internal re-enforcement

• Vent gap around top of the walls to minimise moisture ingress

• Roof can be fitted with absorbent membrane

• Door is fitted with 3 Tee hinges, Rim dead lock and black 'D' handle

• Available in various finishes, either plain colour or foiled to give wood appearance in Green / Black / Golden Oak or Rosewood
